Learn the best practices for lawn care in this comprehensive workshop devoted to lawns in the Central Valley of California.

The art of lawn care is critical in this region; the long hot summers impact warm-season lawns to cool-season lawns. From fertilization techniques to grass selection, this workshop will help you keep your garden in tip-top shape through our different desert-type climates and seasons.

THE WORKSHOP WILL ADDRESS:

- Selecting the best types of grass for this region.
- Providing the proper watering, fertilizing and mowing for your grasses.
- How to control weeds using the least toxic strategy.

ABOUT THE MASTER GARDENERS:

- The Master Gardener Program is a volunteer group within the University of California Cooperative Extension that seeks to be the preferred source of research-based information on gardening, landscape, and resource conservation for the residents of Merced County.
- Master Gardeners accomplish this through extension, informative outreach programs, and the workshops listed to the right.
